

HI5Db

The New WLIS

Blakey Lockman and Gregg DeNitto

USDA Forest Service, Northern Region Forest Health Protection

Tony Courter

USDA Forest Service, Forest Health Technology Enterprise Team

- Includes all high-elevation 5-needle pines
- Internet-based
 - Real-time update
 - User direct data input
 - Password protection for data manipulation
- Universal upload utility
- Includes additional data entry fields
- Plot location distortion available
- Permanent plot data revisit updates

Significant Changes from WLIS

- Foxtail Pine
- Great Basin Bristlecone Pine
- Limber Pine
- Rocky Mountain Bristlecone Pine
- Southwestern White Pine
- Whitebark Pine

Species

- Permanent Plot
- Fuels data available
- Regeneration
 - 5-needle pine
 - All species

Universal Upload Utility

Press the 'Browse' button to navigate to your comma-delimited data file and then push the 'Read Header Row' button. Your custom field names will display in the left-hand column and in the 'Your Fields' pulldown boxes. Map your fields to the corresponding fields in the High Five Needle Pine Data Structure by selecting each from the 'Your Fields' pulldown boxes. Selected field names will be removed from the other pulldowns
